HE Importance of Home Surroundings is being felt all over the United States. Homes—to make them comfortable and beautiful are the big thing of today. Emphatic interest in Furniture and Furnishings for home decoration is being stressed in schools and colleges. You can follow the trend into the Art Museums as evidenced by the new Period Rooms at our own Art Institute of Chicago and the entire new wing of the Metropolitan, just for American Interiors.

Homes are the only concern of this Store. And we are the largest Store in Chicago given over solely to Home Decoration. Visitors are always welcome without being importuned to purchase.

This artist's sketch gives just a slight conception of the most charming home community on the Illinois Central-Flossmoor Park at Flossmoor. Here everything has been provided to give residents the fullest measure of home life. This large tract of high, rolling, picturesque country was selected two years ago because of its natural beauty and strategic location, near rapid transportation yet far enough out to be remote, exclusive, clean and quiet. More than \$800,000 have been spent to make Flossmoor Park the most finely and completely developed community around Chicago. Restrictions fully protect this property to the building of single homes, and there can never be any encroachment of business, factories or undesirable conditions. A dozen fine homes have already been completed-some of which are now for sale at attractive prices.

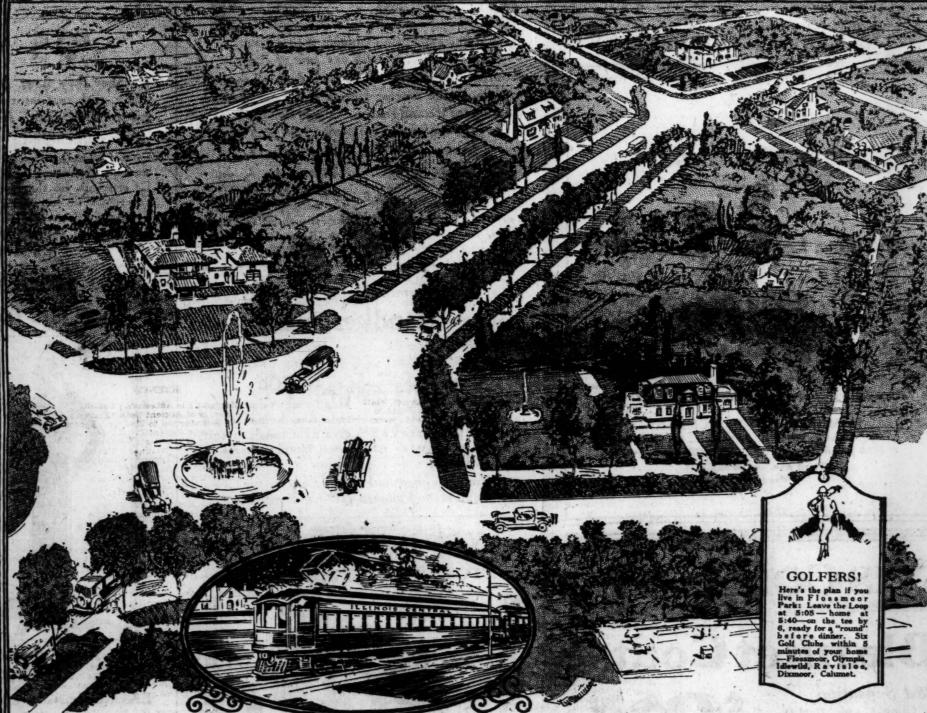

The last available part of Flossmoor Park is now offered at very attractive pricesfrom \$30 to \$45 per foot front, including all improvements in and paid for-and on easy terms of payment. Parcels are 50 feet or wider. When this small section is sold the Flossmoor Park development will be complete and your only chance to buy this fine property will be on a re-sale basis at higher prices. This is the last opportunity to buy, for home or investment, in the "gem" of Chicago suburbs.

You must see Flossmoor Park to fully appreciate its character-its beauty and charm will appeal to all discriminating home-lovers. Come out to see this wonderful development-also see the charming new homes ready for sale and immediate occupancy. Try to drive out tomorrow-you'll enjoy the trip and visit.

You People of Chicago

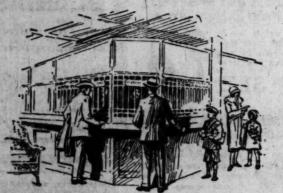

have helped build the greatest drive-it-yourself system in the world

Any man-or woman-can rent a car from us in 5 minutes

This is all you do:

Step into any of our stations and tell the man in charge the kind of a car you want to drive.

He will ask you to register - a very simple oper-ation - and for a deposit of \$10, if you want a Ford, or \$15, if you want a gear-shift car.

You are off for any place you want to go. And the whole business has taken only about 5 minutes

When you return you merely drive the car into the station and forget it. The meter reading is taken and your bill figured.

NOTE: After you are once registered the above operation is even simpler. For then you merely present your identifica-tion Card, select the car you wish to drive, and you're off.

Do you Chicago folks, who rent cars from us, realize that you have helped to build the greatest drive-it-yourself system in the world? Do you know that our "service" is considered the very finest - and that men in similar lines come from all over to study our methods of operating and copy our plan?

Do you realize that your patronage keeps our cars so busy and gives us such a big volume of business, that we are able to rent you the finest cars, and give you the most complete "service" at the very lowest rates?

A few years ago only a few venturesome souls even thought of renting a car and driving it themselves. There were a few garages where one could rent cars. But most of the cars were a disgrace—"broken down," "secondhand" affairs that most people were ashamed to drive. One never knew when he started whether he could get the car back to the garage or not. And he could only hope that the bill wouldn't wreck his pocket-book.

We felt sure you wanted a real drive-it-yourself service. So the Yellow Drive-it-Yourself System was organized.

Instead of using a lot of old cars we bought "brand new" ones: We simplified the methods of renting so that all "red tape" and "fuss" were eliminated. And we purposely made the rates low. We didn't expect to make money at the start. But we knew the lower the rates the more people would rent cars—and we trusted to big volume to see us through.

Big 6-cylinder gear-shift cars and Fords. They are **NOT** painted yellow

Starting with 10 cars and one station we now own and operate in Chicago a fleet of 1200 fine cars and have 7 stations conveniently located. No matter where you live we have a station near you. Also we own and operate the Yellow Drive-it-Yourself Systems of New York and Brooklyn, Cleveland, St. Louis and Louisville.

In our entire fleet there isn't one broken down or second hand car. And you have your choice of open or closed models-big 6-cylinder gear-shift cars or Fords.

All are completely equipped. All are inspected regularly to be sure they are running "sweetly." And they are all cleaned and polished regularly.

When you rent a car from us it is in the "pink" of condition. And even your best friends won't know it's a rented car, unless you tell them.

No time nor mileage guarantee is required

When you rent a car from us you don't have to agree to drive any certain number of miles, or any certain length of time. You can rent a car for an hour, a day, a week or longer, to drive one mile, five miles or thousands.

And you pay only for the miles you drive - nothing for the time the car is standing still-except, after 6 o'clock evenings, Saturday afternoons and all day Sundays and Holidays when a charge of 25c an hour for Fords and 35c an hour for gear-shift cars is added. This only increases the cost a trifle.

Costs less than owning cars

Our rates [see schedule below] include everything - gas, oil, spare tires and even insurance. When you rent from us you have no "original investment" and no "upkeep." You don't pay any repair bills, or garage bills, or buy oil, or gas.

We have hundreds of letters from individuals who use our cars for pleasure purposes and from prominent concerns and men who use them in their business. They all say it is more satisfactory and costs less to rent cars from us than to own them.

Drop into any of our stations today. See the kind of cars we have ready for you. Better yet rent one and go for a "spin." If you will rent a car from us just once you'll find how really convenient and economical our "service" is.

Rates as low as 12c a mile

12 noon Saturdays, and all day Sundays and Holidays, 25 cents per hour on Fords and 35 cents per hour on gear-shift cars is added to the mileage charge. This hour charge is reduced when cars are used for more than one day. No time or mileage guarantee required at any time.

These rates cover everything. Gas, oil, spare tires and more insurance than you would carry yours

He stared at her, anger and bewilderment in his mind.

Princess Mafalda Puts Love Above Throne in Marriage

RACCONIGI, Italy, Sept. 18.—(P) As the wedding day of Princess Ma-falda, second daughter of the king and queen of Italy, and Prince Philip of Hesse approaches, court circles are telling the story of their romance. The wedding will be celebrated at the royal castle here on Sept. 23. It was a bright Saturday afternoon

several years ago at a garden party in the grounds of a magnificent Roman villa that a beautiful girl and a handsome young man were introduced. A mutal interest grew rapidly as they conversed and found interests and tastes in common. Thus the ro-mance of Mafalda and Philip began.
